EDUCATION

Master of Science in Design + Innovation

University of Wisconsin-Madison

Expected Graduation: 2026

Bachelor of Science in Informatics with a Minor in Human Computer-Interaction and Web Design

Indiana University

August 2022 - May 2025 GPA: 3.8

PROFESSIONAL DESIGN EXPERIENCE

UX Designer Associate (Visual & Interaction Design)

UW-Madison MD+I. August 2025 – Present

- Designed user-centered wireframes, interactive prototypes, and user flows to communicate product experiences
- Applied systems thinking, accessibility best practices, and Claude-assisted design workflows
- Synthesized user research and stakeholder feedback into visual concepts and design recommendations

Product Designer & Front-End Developer

Housingkind. September 2025 – May 2026

- Led the end-to-end design and development of an AI-powered housing platform using React, TypeScript, JavaScript, HTML, CSS, and Claude Code
- Conducted 15+ stakeholder interviews to inform product strategy, user flows, and feature prioritization
- Designed high-fidelity interfaces in Figma and developed an AI chatbot using Microsoft Azure AI
- Collaborated with a cross-functional team of four using agile methodologies to deliver user-centered solutions

Digital Design Intern

OUTFRONT Media. June 2024 – August 2024

- Contributed to the development of an AI-assisted tool that streamlined ad copy validation
- Designed low- and high-fidelity prototypes for the MyOutfront B2B SaaS platform, improving workflows by 30%
- Collaborated with designers, developers, and business stakeholders to iterate user-centered digital solutions

Creative Design Intern

OUTFRONT Media. May 2023 – October 2023

- Worked closely with designers to brainstorm ideas, discuss feedback, and iterate on concepts
- Created category decks, billboard mockups, and multi-platform campaign visuals using Adobe Creative Suite
- Applied typography, color theory, and visual storytelling principles to develop engaging brand experiences

UX Designer (Web Client Team Lead)

Serve IT at Indiana University. January 2022 – May 2024

- Led the UX design of a nonprofit website serving 3,000+ monthly users
 - Partnered with nonprofit stakeholders to define user needs, project goals, and feature requirements
 - Created wireframes, user flows, and interface designs to enhance navigation and the overall user experience
-
